Description

Royal Super Automatic Transmission Fluid TYPE A is a superior quality automatic transmission fluid meeting General Motors TYPE A specifications. It is formulated to provide smooth shifting in the automatic and semi-automatic transmission due to high quality of base oil and the advance additives technology is used in the formulation. is recommended for automatic and semi-automatic transmission and torque converters of passenger cars, light commercial vehicles, when the manufacturer requires an ATF TYPE A specification, it is also suitable for power steering system and hydraulic systems on farm tractors and heavy equipment. Which satisfies the latest requirements of passenger cars and commercial vehicle automatics. It has the facility and oiliness suited to the requirements of modern automatic gearboxes, as well as extremely low temperature fluidity. It also has excellent shift fueling, shear stability and wear protection, maximum oil drain interval and high temperature oxidation stability.

Features

- ✔ Provide excellent lubrication in automatic and semi-automatic transmission
- ✔ low friction characteristic to meet GENERAL MOTORS TYPE A requirements
- ✔ Single product for all types of automatic transmissions.
- ✔ Easy start in cold weather and very good operating and shifting during hot weather.
- ✔ The smoother shift in transmission.
